

# Scheduling a KYN Screening at an Offsite Lab Screening location

The process to schedule a Know Your Numbers (KYN) screening has just become easier than ever. WellPath and Orthus Health have teamed up to provide you a simple registration process for scheduling your appointment at one of the many screening options. **Note: The screenings conducted for Wellpath's KYN will be billed to WellPath separate of your SRP-MIC sponsored insurance plan. WellPath is part of your health plan. You will not be required to provide insurance information when attending your KYN screening. Please be mindful of this information when you attend your screening. We do not want to risk being double-billed for KYN screenings and we do not want you to use your preventive laboratory coverage that would typically be a part of an annual physical.**

The first step in scheduling your KYN screening is signing into [My Pathway to Health](#). Once logged in, your Action List should appear. If you have not read and signed the Attestation, this would be a great time to do it. The Attestation (formerly known as WellPath's Orientation Verification Form) is also a requirement to complete the KYN process for 100 WellPath points.
